I'm starting the 7-Day DevOps challenge!

TS

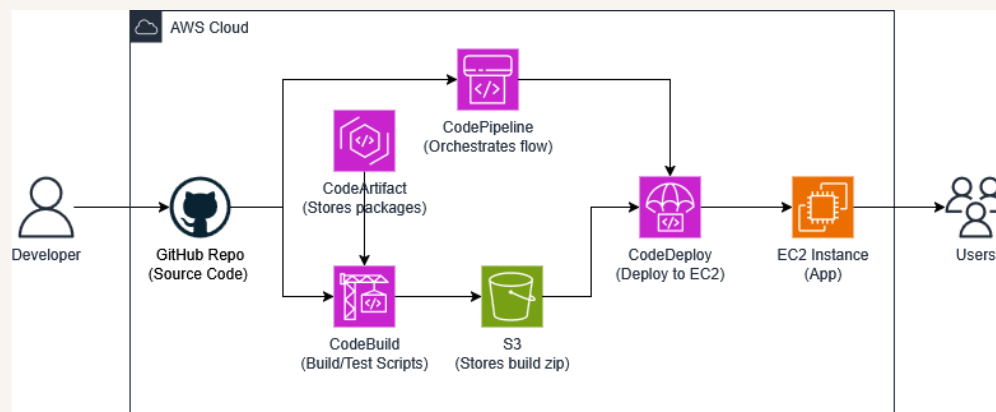

tshephomothale@outlook.com

I'm building a CI/CD pipeline in 7 days

In this 7-day DevOps Challenge, I'll build a full CI/CD pipeline using AWS. Learn to automate testing and deployment, connect GitHub, use CodeBuild, CodeDeploy, and CodePipeline, gaining real hands-on DevOps skills.

Hold me accountable!

I'll dedicate 3 hours daily for a week to complete this DevOps challenge. I'll stay accountable by tracking my progress and sharing updates online. My reward will be new AWS DevOps skills, a stronger portfolio, and a moment to celebrate!

What is DevOps?

DevOps is a practice that unites software development and IT operations to deliver applications faster and more reliably. DevOps engineers implement automation, CI/CD pipelines, and cloud tools to streamline coding, testing, and deployment

What is CI/CD?

CI/CD stands for Continuous Integration and Continuous Deployment. This process helps teams automate code building, testing, and deployment ensuring faster releases, fewer errors, and more reliable software updates.
